Sans indication spécifique l'état de l'échantillon à réception est réputé conforme. L'échantillon et les informations de son identification ont été transmises par le demandeur (appellation, millésime, n° de lot). Le présent rapport ne concerne que l'échantillon analysé.

Without specific indication, the sample upon receipt is deemed to be compliant. The sample and its identification information were provided by the applicant. This report relates only to the sample analyzed. It does not cover the interpretation or the conclusion which falls within the competence of the laboratory. COFRAC accreditation certifies the competence of the laboratory for the only analyses covered by the accreditation which are followed by an asterisk. Analyses preceded by two asterisks have been under-processed. Reproduction of this report is authorized only in the form of a complete photographic facsimile, with the authorization of the director of the laboratory.
